

How to Handle Special Requests at Cub Scout & Arrow of Light

Northern Star Council does its best to handle special requests and needs at our Resident Camps. By following these procedures, you will ensure that each of our camps is aware of any special needs you may have prior to attending camp.

At all of our camps, please contact the camp directly at least 7 days prior to the session you are attending; but no more than 14 days.

The following are some common needs that our camps like to know ahead of time to best serve your needs:

- Vegetarian meal requests
- Gluten Free meal requests
- Special diet concerns (we cannot always accommodate every diet, but will discuss options with you)
- Electricity needs in campsites/buildings for CPAP or other machines
- Accommodations for wheelchairs or other disabilities

If you have a different situation, and are not sure how it will affect you at camp, contact us.

How to Handle Special Requests

Go into your online registration and enter their health information a minimum of 2 weeks prior to your camp date. There are boxes for allergies, dietary needs, and other medical concerns. All of those fields show up on a health officer report for camp so they can confirm the notes at check-in. This is the best way to notify camp. Contact the goscouting.org hotline at 651-287-3699 for online questions.
